## TENA Solutions: A case study Nursing home, Krškany, Slovakia

“90% of staff surveyed  
said TENA products were more  
comfortable and kept skin drier”

– Nursing home in Krškany,  
Slovakia

**TENA assists in implementing an individualized care program and the results are impactful at resident care and operational levels.**

### Background

The Krškany nursing home in Slovakia cares for both mentally and physically handicapped residents. They asked for assistance in streamlining their operations – pads were changed quite often, there were many leakages and they wanted to have a solution to reduce the amount of waste. On the whole, staff work satisfaction was low and they didn't know how to make their work more effective. They wanted to reduce workload and time spent on incontinence-related tasks.

### Recommended changes

- SCA offered product selection training
- TENA nurse selected together with the staff products for each client according to their individual needs (correct product type, absorbency and size)
- 7% TENA Pants Super (0.2 pcs/day + toileting)
- 24% TENA Light inco products (0.8 pcs/day)
- 69% TENA Slip Medium (2.2 pcs/day)
- SCA supported with toileting routines

	Resident well-being	Working atmosphere	Budget	Environment
<b>Before</b>	Healthy skin: 9 Sensitive: 13 Broken/Damaged: 2 21 minutes per resident over 24 hours	Number of Interventions: 5.8	Laundry: 164 kg Waste: 48 kg	
<b>After</b>	Healthy skin: 11 Sensitive: 13 Broken/damaged: 0 8 minutes per resident over 24 hours 62% less time spent on pad changes per day	Number of Interventions: 3.2 45% fewer pad changes	Laundry 112 kg 32% less laundry Waste 25 kg 48% less waste	Healthy skin: 11 Sensitive: 13 Broken/damaged: 0

## Key benefits

The key benefits that this home received through implementing best practices were:

- Better co-operation between SCA and NH
- Training session about individual product selection
- Considerably fewer pad changes and less time spent on incontinence-related tasks
- Residents are more comfortable and have less skin irritation thanks to breathable incontinence pads
- Amount of waste reduced considerably
- The nursing home staff have more time for more rewarding care

## About TENA

The TENA® brand is the worldwide leader in continence health care and incontinence management with products and services for individual consumers and for healthcare facilities in over 100 countries. With the TENA® brand, SCA is at the forefront of developing products that minimize the impact of incontinence and improve the dignity and everyday lives of people living with light, moderate or heavy incontinence.

SCA Care of life. Because our products make life easier for you and for millions of people around the world. Because our resources and the way we work are natural parts of the global lifecycle. And because we care.
