WANT TO TAKE THE
GUESSWORK OUT
OF CONTINENCE
ASSESSMENTS?

TENA®

A new level of accuracy with TENA Identifi™

TENA® Identifi™ enables facilities to conduct more accurate continence assessments to improve individualised care

1

Record

TENA Sensor Wear tracks voiding times and volumes for 72 hours

2

Transmit

Reusable TENA Identifi™ logger transmits to secure web portal

3

Report

Log in to the secure TENA Identifi™ website to access individual voiding reports

TENA Identifi™

- Improved quality of care with accurate assessments
- Improved product prescriptions
- Detailed reporting with visibility of voiding patterns

Benefits to your facility

- More accurate than weighing and estimating
- Improved individualised care plans
- 24% reduction in absorbency of pads needed means lower cost and less waste†
- Accurate evidence for ACFI funding

Benefits to residents

- Individualised product changing times avoids wet pads/beds and associated skin issues
- Individualised toileting times helps to maintain resident's dignity
- Lower absorbent products are less bulky and more comfortable
- Information provides reassurance for individuals and families

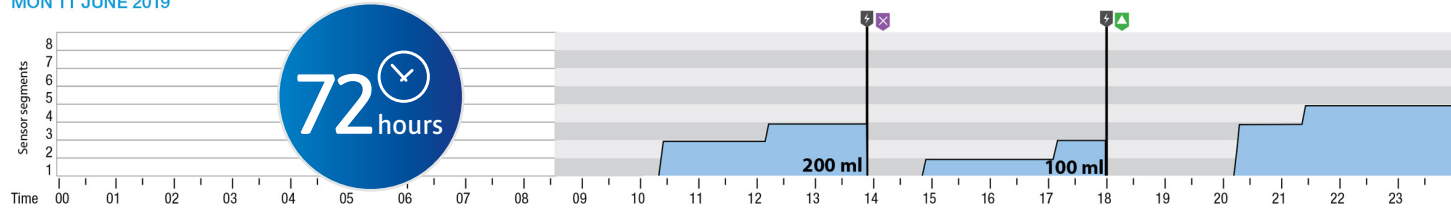

TENA Identifi Sample Report

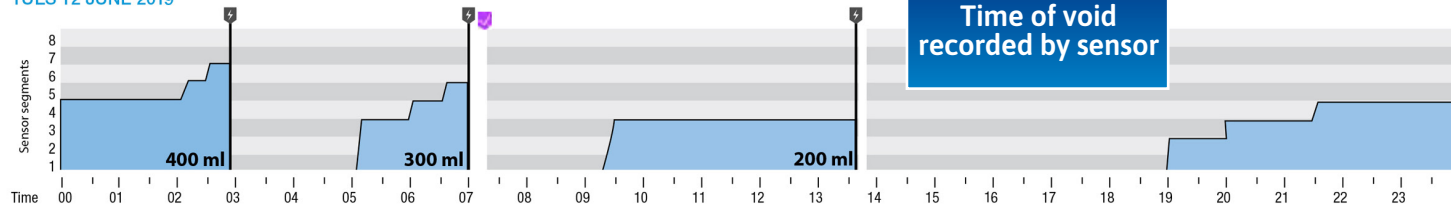

This report presents accurate and real-time documentation of voiding patterns for optimising individual continence care plans.

Name: 345
Facility: Our Care Center
Ward: West Room: 133
Assessment started: 11 June 2019 07:34

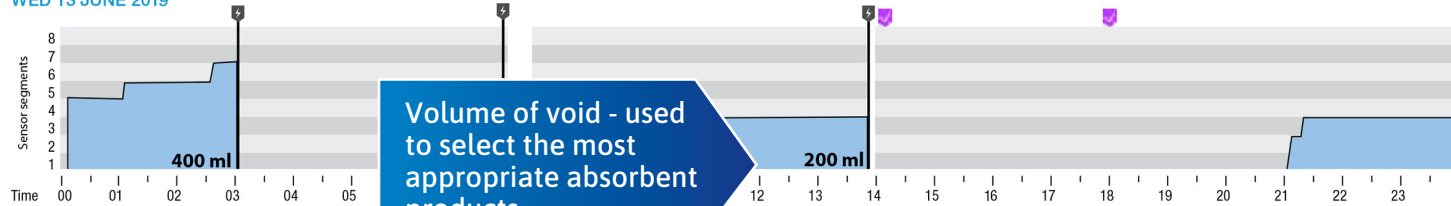

MON 11 JUNE 2019

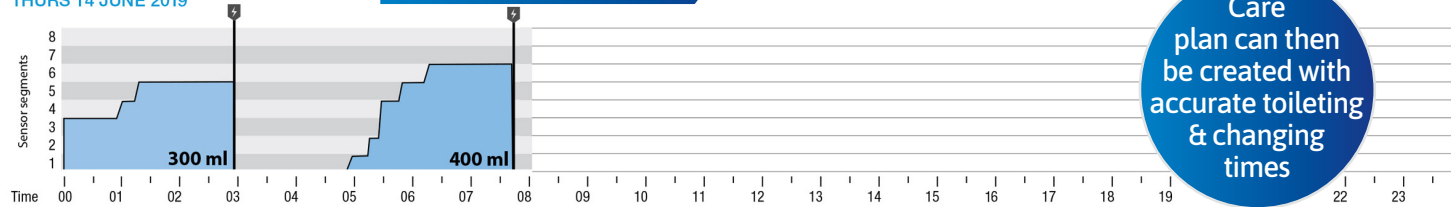

TUES 12 JUNE 2019

WED 13 JUNE 2019

THURS 14 JUNE 2019
