Introducing the full TENA ProSkin Range

Specifically designed to help lower the risk of incontinence related skin irritation.

When looking after a loved one, you want to be sure you're giving them the best care. Keeping skin dry is crucial to helping prevent incontinence-related skin irritation. TENA ProSkin Pants absorb in seconds to keep skin dry - working alongside our wet wipes and barrier cream keep skin clean and protected. This 3-step process helps maintain skin health.

TENA ProSkin Pant

Our FeelDry Advanced Technology draws liquid away from the surface, keeping the skin dry.

Breathable materials that allow air to circulate for skin health and comfort.

Our pants **neutralises odours** instantly and continuously.

Triple protection and soft comfort helps your customers loved ones to stay dry, secure, and confident all day.

Just like underwear, this pant **stretches to fit the body**, ensuring that it always stays in place for comfort and security.

Soft anti-leakage barriers for extra protection.

TENA ProSkin Barrier Cream

Contains natural caring oil and vitamin E to soothe and moisturize fragile skin.

Water-repellent layer for preventative use in areas which show early signs of redness.

Free from perfume and preservatives, ideal for those with sensitive skin.

TENA ProSkin Wet Wipes

3-in-1 skincare for everyday personal hygiene.

Cleanses, protects and moisturises the skin.

Soft and thin wipes to provide a gentle touch for fragile skin.

Designed for adults XL size, 30 x 20 cm is approximately two times bigger than an average baby wipe.

Easy one-handed dispensing, no rinsing or drying is required.

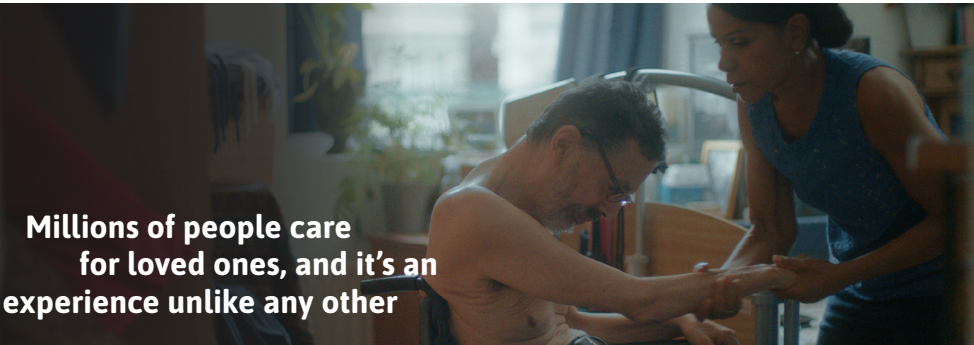

The **Skin Health Alliance** accredits all TENA ProSkin products so you can be sure they are always skin-friendly.

Step by step in the **TENA Protects Program** we are **reducing our carbon footprint** to leave a better mark on the planet together with you.

There can be no joy like it, no pain like it – and ultimately no love like it.

With over 60 years’ experience supporting carers, TENA understands the realities faced. Dealing with incontinence is just one of the challenges. Family carers experience many other physically, mentally, and emotionally demanding situations. Carers do an amazing job, and we want to everything we can to support them. When you feel supported, you can do the best for the person you’re looking after.
